What we do

Pune's only emotive advertising agency. Your go-to for all marketing solutions that are insight-driven with a tadka of nostalgia. Let's turn your vision into a sight for sore eyes.

BRANDING & STRATEGY

Let's define a clear brand strategy and translate that into your brand's identity, then carry it forward to the design language and communication touchpoints. Let us identify a tailored action plan that will touch the hearts of the listeners

CONTENT WRITING

Accepting that in this social world, content is currency. Therefore we create beautiful, dynamic content to organically have our presence felt in the crowded online space. Memes that will be shared, to emotionally binding stories that stay relevant & insight based.

CREATIVE DESIGN

Team Jugni is known to work with individuals and businesses from the ground up creating bespoke design assets. Like a firefly, visuals that leave a trail of light on every mind!

SOCIAL MEDIA MARKETING

Understanding the business objectives and consumer insights to manage the social media presence of diverse brands. From trending reels to paid promotions we put together a posting plan that resonates with your brand not just what the internet needs! **of your brand story.**

Integrated Marketing Campaigns

Leverage your brand's design language & tonality to create effective strategies that translate into robust designs across ATL, BTL, and internal brand communications. Write & tell stories in relatable manners that are sure to make the product or service become a household name.

Web design & development

If we claim to spend all our time glued to screens, we sure put together a web experience that is aesthetic & engaging at the same time.
